

**Daftar Peserta Pelatihan/Klinik Manuskrip dan Submit Publikasi Internasional  
untuk Dosen Universitas Diponegoro Batch XXVI Tahun 2018  
Salatiga. 30 Agustus 2018 - 01 September 2018**

| No | Nama Peserta                                    | Fakultas                     | Judul Artikel                                                                                                                                                                 |
|----|-------------------------------------------------|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | Monica Rahardian Ary Helmina, SE, M.Si          | Ekonomika dan Bisnis         | Effect Of Integrated Reporting On Firm Value An Approach From Financial Statements And Non Financial Reports On The Indonesia Stock Exchange                                  |
| 2  | Hendrawan Santosa Putra, SE,M.Si.,AK            | Ekonomika dan Bisnis         | The Acceptance of Accural-Based Government Financial Reporting Information System                                                                                             |
| 3  | Munawaroh, SE, Ak. MM, CA                       | Ekonomika dan Bisnis         | Exploring The Sustainability Strategy Of The Go Public Companies In Indonesia: An Assessment Of The Life Cycle Of The Company                                                 |
| 4  | Imang Dapit Pamungkas, SE., M.Si, Akt., CA,CIBA | Ekonomika dan Bisnis         | Fraud Financial Statement Detection With Beniesh Model: Real Earning Management As Variable Intervening                                                                       |
| 5  | Mahoro Jean Claude Geofrey                      | Hukum                        | A Crime of Aggression: Jurisdiction in Vain                                                                                                                                   |
| 6  | Bulan Prabawani, S.Sos, MM, PhD                 | Ilmu Sosial dan Ilmu Politik | Economic Rationalities of Loksado Indigenous in a Redenomination Perspective                                                                                                  |
| 7  | Sierfi Rahayu, S.Sos.                           | Ilmu Sosial dan Ilmu Politik | Role of Departement of Transportations in Supervising Mandala Terminals in Lebak District Banten Province                                                                     |
| 8  | Mariayani Oktafiana Rene,S.AB.                  | Ilmu Sosial dan Ilmu Politik | Risk Management for Public Sector and The Implication to Stability (Case study in Indonesia Simultaneous Regional Elections 2018 and General Election 2019)                   |
| 9  | Heru Ginanjar Triyono, S.Kep.,Ns., M.Kep        | Kedokteran                   | The Effect of Mindfulness on Caregiver Burden in Caring Elderly With Dementia in Nursing Home                                                                                 |
| 10 | Ns. Munandar, S.Kep                             | Kedokteran                   | Application of Reflective Supervisions Head Nurses to Improve Compliance of Executing Nurses in Implementing Hand Hygiene in Hospitals                                        |
| 11 | Ns. Reza Indra Wiguna, S.Kep.,M.Kep             | Kedokteran                   | "The Effect of Mindfulness Through Smartphone Applications Against the Anxiety of Nursing Students"                                                                           |
| 12 | Deka Ade Yasmawan, S.Kep,Ns                     | Kedokteran                   | Management of Diabetic Foot Ulcers on Adjunctive Therapy: a Systematic Review                                                                                                 |
| 13 | Ir. Suyatno, M.Kes.                             | Kesehatan Masyarakat         | Physical Fitness in Female is Better than Male among School-age Children at Semarang City, Central Java, Indonesia                                                            |
| 14 | Naintina Lisnawati, S.KM,M.Gizi                 | Kesehatan Masyarakat         | Factors Associated With Exclusive Breastfeeding Duration                                                                                                                      |
| 15 | Abdul Rahim, S.Si                               | Pascasarjana (MIL)           | Bioaccumulation of Lead (Pb) by Water Hyacinth (Eichhornia crassipes (Mart.) Solms) In Batujai Reservoir, Central Lombok Regency-Indonesia                                    |
| 16 | Triyono Budiwibowo,Msi.,Ak,CA                   | Pascasarjana (PDIE)          | Effects Of Risk Degree On The Relationships Between Anchor And Judgment Perfomance With Bias Audit Judgment As Intervening Variable (Implication Anchoring on Audit Judgment) |
| 17 | Dr Vivi Endar Herawati, S.PI M.SI               | Perikanan dan Ilmu Kelautan  | Growth and Nutrient Value of Tilapia (Oreochromis niloticus) Fed with Lemna minor Meal Based on Different Fermentation Time                                                   |
| 18 | Argi Argiris,S.Pt.,M.P.                         | Peternakan dan Pertanian     | Superiority of Holstein Bulls as Frozen Semen Producer and Genetic Source for Milk Production in Indonesia                                                                    |

| No | Nama Peserta                                  | Fakultas                 | Judul Artikel                                                                                                                                                      |
|----|-----------------------------------------------|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 19 | Ki Agus Muhammad Zain Basriwijaya,S.Pt.,M.Si. | Peternakan dan Pertanian | Relationship Between Motivation And Behavior Of Pitalah Duck Farmer (Case Study In Rokan Hulu Regency Riau State)                                                  |
| 20 | Sri Wahyuni                                   | Peternakan dan Pertanian | In vitro anthelmintic activities of four Cassia species extracts on infective larvae of Haemonchus contortus                                                       |
| 21 | Joko Tri Harjanto,ST., MMA                    | Peternakan dan Pertanian | Performance of Islamic Boarding Schools in Developing the beef cattle agribusiness partnership network as a community empowerment institution in Central Java      |
| 22 | Maulana Hamonangan Nasoetion, S.Pt.,M.P.      | Peternakan dan Pertanian | Broiler's Fat On Different Stocking Density Fed Purple Sweet Potatoes Extract                                                                                      |
| 23 | Dr. Ir. Retno Adiwiniarti,M.Sc.               | Peternakan dan Pertanian | Formaldehyde protected soybean meal in total mixed ration for Kacang goat to produce more efficiently meat                                                         |
| 24 | Amalia Puji Rahayu, S.Pt.,M.Si.               | Peternakan dan Pertanian | Genetic Markers Of Milk Fat Yield On Indonesian-Holstein Dairy Cattle                                                                                              |
| 25 | Muhammad Ainsyar Harahap,S.Pt.,M.Si.          | Peternakan dan Pertanian | In vitro ruminal fermentability of urea slow release and non fiber carbohydrates combination                                                                       |
| 26 | Santi Yuli Astuti, S.Si                       | Sains dan Matematika     | Characteristics of Bolus Using Silicone Rubber with Silica Composites for Electron Beam Radiotherapy                                                               |
| 27 | Eka Triyana, S.Pd                             | Sains dan Matematika     | Modification of Triangular Membership Function to Improve the Performance of Firefly-Chen Fuzzy Time Series Method                                                 |
| 28 | Lathifatul Aulia, S.Si                        | Sains dan Matematika     | Effective Number of Clusters on Fuzzy Time Series Forecasting Method                                                                                               |
| 29 | Gesti Essa Waldhani S. Si                     | Sains dan Matematika     | Hopf Bifurcation in The IS-LM Business Cycle Model with Time Delay                                                                                                 |
| 30 | Miftahul Jannah, S.Pd..                       | Sains dan Matematika     | A combination of RSA method and Affine Cipher method to improve effectiveness and secure of text message                                                           |
| 31 | Tiara Redya Pratiwi, S.Si                     | Sains dan Matematika     | Restricted ridge regression (RRR) Analysis to Solve Multifcollinearity and it's application on primary money data                                                  |
| 32 | Intan Muning Harjanti,ST.,MT.                 | Sekolah Vokasi           | Identification of Public Green Open Space Functions in Kelurahan Manahan, Surakarta City                                                                           |
| 33 | Pratamaningtyas Anggraini,ST.,MT.             | Sekolah Vokasi           | Characteristic of Traditional Market Location in Semarang City                                                                                                     |
| 34 | Bintang Setiarani, ST., MT.                   | Sekolah Vokasi           | Community Group Networking on Community-based Adaptation Measure in Semarang Coastal Area                                                                          |
| 35 | Patrick Munyensanga, B.Sc.                    | Teknik                   | Study of aerodynamics effect performance in offshore wind turbine a review                                                                                         |
| 36 | Ir. Luluk Edahwati, MT                        | Teknik                   | Optimized Phosphate recovery through MAP precipitation in an air Agitated Column Reactor                                                                           |
| 37 | Sriyanto, ST. MT.                             | Teknik                   | Decision Support System for Corporate Sustainability Performance Measurement                                                                                       |
| 38 | Gilar Pandu Annanto                           | Teknik                   | Optimization of Mountain Bike Frame Using Finite Element Method                                                                                                    |
| 39 | Ir. Kartini, MT., S.Kom.                      | Teknik                   | Data Transfer Analysis of Homogen Rough Surface into CAE Model: A Comparative Study of File Type Selection                                                         |
| 40 | Septian Sigit Setiawan, ST.                   | Teknik                   | Analysis Of Heat Treatment Process On Wear Rate Of Bucket Teeth Of IKM Products To Meet The Standar Nasional Indonesia (SNI) By Utilizing Taguchi Method And Anova |
