

# DAEWOONG FOUNDATION

## 2025 YOUNG MEDICAL SCIENTIST

# RESEARCH GRANT

**The Daewoong Foundation**, established by Korea's leading pharmaceutical company Daewoong, has supported talents in and outside Korea since 1984 through Research Grant, scholarships, and professional mentoring programs.

### OBJECTIVE

To support the growth and challenges of young medical scientist by expanding their research capacity and strengthening academic excellence, ultimately fostering innovative outcomes that contribute to the advancement of global healthcare.

### RESEARCH AREA

Research Theme	Technology Field	Research Area
Research on Novel Mechanism-Based Degraders (e.g., Proteins, Antibodies, mRNA, Undruggable Targets)	Drug Discovery	Basic Research
AI-Driven Drug Discovery for Novel Target Identification, Lead Generation, and Optimization of Therapeutic Efficacy	Drug Discovery	Basic Research
Innovative gene therapy platforms or disease-related gene discovery	Drug Discovery	Basic Research
Development of Innovative Cell Therapies for Functional Restoration of Target Tissues	Drug Discovery	Basic Research
Formulation Optimization for Targeted Delivery of Biopharmaceuticals to Low-Accessible Tissues such as the CNS	Drug Discovery	Platform Technology
Investigation of Novel Compounds and Aging Pathways Using Human-Like Non-Human Primates	Platform	Basic Research

### PROGRAM OVERVIEW

**RESEARCH PERIOD** 1 year (2025.Dec - 2026. Nov)

**GRANT AMOUNT** Up to KRW 50 million (Tax-exempt, Including indirect costs)

**ELIGIBILITY** Researchers under the age of 45 (Born on or after Jan 1 1980)  
Holding an MD, VMD, RPh, or PhD Degree

### APPLICATION METHOD

#### Online Submission

submit via email to (Medischolar@daewoong.co.kr)

### TIMELINE

※ THE DETAILED SCHEDULE IS SUBJECT TO CHANGE DUE TO INTERNAL AND EXTERNAL CIRCUMSTANCES.
